Swain 101A and 108A TV Operation

The A/V configuration for these classrooms is identical with two exceptions:

- The remote in 108A will control the TV, VCR, and DVD player. A separate remote must be used for the VCR in 101A.
- The A/V setup in 108A includes an amplifier and external speakers. The amplifier must be turned on for sound. The left and right channels are adjusted independently.

To select the input source on the TV:
- Press the TV/VIDEO button on the upper left-hand corner of the remote to access the source menu.
- Press 1 to select the VCR
- Press 2 to select the U-Matic player.
- Press 3 to select the VIDEO 3 input on the front panel of the TV (for plugging in a camcorder).
- Press 4 to select the DVD player

To change the aspect ratio on the TV:
- Press PIC SIZE on the remote to access the aspect ratio menu.
- NATURAL will display the image close to its originally formatted proportion, though it may display side bars and/or bars at the top and bottom of the screen.
- THEATERWIDE 1 is used with 4:3 format programs. The left and right edges are stretched to fill the screen.
- THEATERWIDE 2 is used for letter boxed programs.
- THEATERWIDE 3 is used for letter boxed programs with subtitles.
- Select FULL for 16:9 source programs
